The image features a central white rectangular card with rounded corners and a black border, set against a light blue background. The card contains the text 'Project Based Learning' in a large, bold, blue font, with horizontal lines underlining each word. Below this, the subtitle 'A brief overview' is written in a smaller, black font. The background is decorated with various school-related items: a pink pencil eraser at the top left, a blue double-headed arrow at the top right, a yellow notepad at the bottom left, a green wavy line at the bottom center, and a blue pen at the bottom right. A white document with horizontal lines is partially visible in the top right corner.

Project Based Learning

A brief overview

What is Project Based Learning?

- Students learn by **actively engaging in real-world** and personally meaningful projects.
- Students come together to solve problems in an authentic **hands-on approach.**

Grade 7 students pack winter care packages for the homeless with items collected in their clothing drive.

As stated by PBL Works:

Essential Design Elements of PBL

- Challenging Problem/Question
- Sustained Inquiry
- Authenticity
- Student Voice and Choice
- Reflection
- Critique and Revision
- Public Product

Gold Standard PBL

Seven Essential Project
Design Elements

“Real world” learning

Real world issues will influence the students' learning experience to help them create authentic and meaningful learning. Students will get the opportunity to work with various experts to enhance their public products.

Project based learning helps students understand how course content can be applied in everyday life.

Students are able to use and build upon skills from multiple disciplines in a single project.

Community Connection

Students should solve problems that are important to them and their communities.

The project should aim to serve a real world purpose and genuine needs of the community.

Students personally distribute care packages to the homeless.
